From the Desk of the Editor—State of the Journal, *61*(6), 611–612
From the Guest Editor—Concept Evolution in Sensory Integration: A Proposed Nosology for Diagnosis, *61*(2), 135–140
From the Guest Editor—Deriving Practice Implications From This Issue's Sample of Pediatric Occupational Therapy Research Literature, *61*(4), 375–377
In Memoriam—Lorna Jean King, OTR/L, FAOTA, *61*(2), 141
The Issue Is—Goal Attainment Scaling as a Measure of Meaningful Outcomes for Children With Sensory Integration Disorders, *61*(2); 254–259
The Issue Is—Knowledge Translation: A Concept for Occupational Therapy?, *61*(5), 593–596
The Issue Is—A Reconsideration of Occupational Therapy's Core Values, *61*(4), 474–478
The Issue Is—Recovery of Our Phenomenological Knowledge in Occupational Therapy, *61*(4), 469–473
The Issue Is—Revision of the *Occupational Therapy Practice Framework*, *61*(1), 119–126
Letter to the Editor, *61*(5), 603–604
Presidential Address, 2007—A Legacy of Leadership: Achieving Our *Centennial Vision*, *61*(6), 622–628

Down Syndrome
Functional Performance Characteristics Associated With Postponing Elementary School Entry Among Children With Down Syndrome, *61*(4), 414–420

Driving
Using Social Judgment Theory to Study Occupational Therapists' Use of Information When Making Driver Licensing Recommendations for Older and Functionally Impaired Adults, *61*(5), 493–502

Dynamic Occupational Therapy Cognitive Assessment for Children (DOTCA–Ch)
The Dynamic Occupational Therapy Cognitive Assessment for Children (DOTCA–Ch): A New Instrument for Assessing Learning Potential, *61*(1), 41–52

Education
The Acquisition and Integration of Evidence-Based Practice Concepts by Occupational Therapy Students, *61*(1), 53–61
Disposition Toward Critical Thinking Among Occupational Therapy Students, *61*(5), 519–526
A Firm Persuasion in Our Work—Occupational Therapy: A Journey Driven by Curiosity, *61*(5), 599–602
Training Needs of Pediatric Occupational Therapists in Assistive Technology, *61*(3), 345–354
Understanding Occupational Therapy Students' Attitudes, Intentions, and Behaviors Regarding Community Service, *61*(5), 527–534

Feeding
Bottle-Feeding Behaviors in Preterm Infants With and Without Bronchopulmonary Dysplasia, *61*(4), 378–383
Reducing Tube Feeds and Tongue Thrust: Combining an Oral–Motor and Behavioral Approach to Feeding, *61*(4), 384–391

Geriatric
Recovery After Hip Fracture: What Can We Learn From the Canadian Occupational Performance Measure?, *61*(3), 335–344
Relationship Between Awareness of Disability and Occupational Performance During the First Year After a Stroke, *61*(5), 503–511
Using Social Judgment Theory to Study Occupational Therapists' Use of Information When Making Driver Licensing Recommendations for Older and Functionally Impaired Adults, *61*(5), 493–502

Hand and Shoulder
Analysis of Proximal and Distal Muscle Activity During Handwriting Tasks, *61*(4), 392–398
Interrater and Intrarater Reliability of the Assisting Hand Assessment, *61*(1), 79–84
A Short-Term Graphomotor Program for Improving Writing Readiness Skills of First-Grade Students, *61*(4), 399–405
Splinting for Osteoarthritis of the Carpometacarpal Joint: A Review of the Evidence, *61*(1), 70–78

Home and Community Health
Brief Report—A Pilot Study on the Impact of Occupational Therapy Home Programming for Young Children With Cerebral Palsy, *61*(4), 463–488
Gaining Insight Into Patients' Perspectives on Participation in Home Management Activities After Traumatic Brain Injury, *61*(3), 269–279
Perceived Control: How Is It Related to Daily Occupation in Patients With Mental Illness Living in the Community?, *61*(5), 535–542
Understanding Occupational Therapy Students' Attitudes, Intentions, and Behaviors Regarding Community Service, *61*(5), 527–534

Mental Health
Everyday Occupation, Well-Being, and Identity: The Experience of Caregivers in Families With Dementia, *61*(1), 9–20
Occupational Engagement in Persons With Schizophrenia: Relationships to Self-Related Variables, Psychopathology, and Quality of Life, *61*(1), 21–32
Perceived Control: How Is It Related to Daily Occupation in Patients With Mental Illness Living in the Community?, *61*(5), 535–542
Psychometric Properties of the Loewenstein Occupational Therapy Cognitive Assessment—Second Edition in Taiwanese Persons With Schizophrenia, *61*(1), 108–118
Supported-Employment Program Processes and Outcomes: Experiences of People With Schizophrenia, *61*(5), 543–554

Muscle Activity
Analysis of Proximal and Distal Muscle Activity During Handwriting Tasks, *61*(4), 392–398

Occupational Therapy Practice Framework
Agreement Between *Occupational Therapy Practice Framework* Classifications and Occupational Therapists' Classifications, *61*(5), 512–518
The Issue Is—Revision of the *Occupational Therapy Practice Framework*, *61*(1), 119–126
Letter to the Editor, *61*(5), 603–604

Pediatrics
Behavioral Indexes of the Efficacy of Sensory Integration Therapy, *61*(5), 555–562
Bottle-Feeding Behaviors in Preterm Infants With and Without Bronchopulmonary Dysplasia, *61*(4), 378–383
Boys With Developmental Coordination Disorder: Loneliness and Team Sports Participation, *61*(4), 451–462
Brief Report—A Pilot Study on the Impact of Occupational Therapy Home Programming for Young Children With Cerebral Palsy, *61*(4), 463–488
Development of the Sensory Processing Measure–School: Initial Studies of Reliability and Validity, *61*(2), 170–175
The Dynamic Occupational Therapy Cognitive Assessment for Children (DOTCA–Ch): A New Instrument for Assessing Learning Potential, *61*(1), 41–52
The Effect of Sound-Based Intervention on Children With Sensory Processing Disorders and Visual–Motor Delays, *61*(2), 209–215

Effects of Caregiver–Child Interactions on Play Occupations Among Young Children Institutionalized in Eastern Europe, *61*(4), 429–440
Evaluation of Computer-Access Solutions for Students With Quadriplegic Athetoid Cerebral Palsy, *61*(3), 355–364
Extreme Sensory Modulation Behaviors in Toddlers With Autism Spectrum Disorders, *61*(5), 584–592
From the Guest Editor—Deriving Practice Implications From This Issue's Sample of Pediatric Occupational Therapy Research Literature, *61*(4), 375–377
Functional Performance Characteristics Associated With Postponing Elementary School Entry Among Children With Down Syndrome, *61*(4), 414–420
How Does Sensory Processing Dysfunction Affect Play?, *61*(2), 201–208
Identifying Gravitational Insecurity in Children: A Pilot Study, *61*(2), 142–147
Immediate Effect of Ayres' Sensory Integration-Based Occupational Therapy Intervention on Children With Autism Spectrum Disorders, *61*(5), 574–583
Impact of Culture on Children's Community Participation in Israel, *61*(4), 421–428
The Issue Is—Goal Attainment Scaling as a Measure of Meaningful Outcomes for Children With Sensory Integration Disorders, *61*(2); 254–259
Lessons Learned: A Pilot Study on Occupational Therapy Effectiveness for Children With Sensory Modulation Disorder, *61*(2), 161–169
Pediatric Constraint-Induced Movement Therapy in a Young Child With Minimal Active Arm Movement, *61*(5), 563–573
A Randomized Controlled Pilot Study of the Effectiveness of Occupational Therapy for Children With Sensory Modulation Disorder, *61*(2), 228–238
Reducing Tube Feeds and Tongue Thrust: Combining an Oral–Motor and Behavioral Approach to Feeding, *61*(4), 384–391
Sensory Processing in Children With and Without Autism: A Comparative Study Using the Sort Sensory Profile, *61*(2), 190–200
A Short-Term Graphomotor Program for Improving Writing Readiness Skills of First-Grade Students, *61*(4), 399–405
Training Needs of Pediatric Occupational Therapists in Assistive Technology, *61*(3), 345–354
Using Salivary Cortisol to Measure the Effects of a Wilbarger Protocol-Based Procedure on Sympathetic Arousal: A Pilot Study, *61*(4), 406–413
Validating the Diagnosis of Sensory Processing Disorders Using EEG Technology, *61*(2), 176–189

Practice
A Case Report of Evidence-Based Practice: From Academia to Clinic, *61*(1), 85–91.
Factors Influencing the Use of Energy Conservation Strategies by Persons With Multiple Sclerosis, *61*(1), 96–107
A Firm Persuasion in Our Work—Occupational Therapy: A Journey Driven by Curiosity, *61*(5), 599–602
From the Guest Editor—Deriving Practice Implications From This Issue's Sample of Pediatric Occupational Therapy Research Literature, *61*(4), 375–377
Occupation Emerges in the Process of Therapy, *61*(4), 441–450
Use and Perceived Effectiveness of Energy Conservation Strategies for Managing Multiple Sclerosis Fatigue, *61*(1), 62–69

Praxis
Development of an Assessment for Ideational Praxis, *61*(2), 148–153

Physical Rehabilitation
Chronic Pain and Occupation: An Exploration of the Lived Experience, *61*(3), 290–302
Recovery After Hip Fracture: What Can We Learn From the Canadian Occupational Performance Measure?, *61*(3), 335–344

Reference/Research
Ethical Decision Making in Clinical Research: Application of CELIBATE, *61*(1), 92–95
Fidelity in Sensory Integration Intervention Research, *61*(2), 216–227
The Issue Is—Knowledge Translation: A Concept for Occupational Therapy?, *61*(5), 593–596

Schizophrenia
Occupational Engagement in Persons With Schizophrenia: Relationships to Self-Related Variables, Psychopathology, and Quality of Life, *61*(1), 21–32

School
Development of the Sensory Processing Measure–School: Initial Studies of Reliability and Validity, *61*(2), 170–175

Self-Care
The Lived Experience of Recapturing Self-Care, *61*(3), 303–310

Sensory Integration
Behavioral Indexes of the Efficacy of Sensory Integration Therapy, *61*(5), 555–562
Development of an Assessment for Ideational Praxis, *61*(2), 148–153
Development of the Sensory Processing Measure–School: Initial Studies of Reliability and Validity, *61*(2), 170–175
The Effect of Sound-Based Intervention on Children With Sensory Processing Disorders and Visual–Motor Delays, *61*(2), 209–215
An Examination of the Relationships Between Motor and Process Skills and Scores on the Sensory Profile, *61*(2), 154–160
Fidelity in Sensory Integration Intervention Research, *61*(2), 216–227
From the Guest Editor—Concept Evolution in Sensory Integration: A Proposed Nosology for Diagnosis, *61*(2), 135–140
How Does Sensory Processing Dysfunction Affect Play?, *61*(2), 201–208
Identifying Gravitational Insecurity in Children: A Pilot Study, *61*(2), 142–147
Immediate Effect of Ayres' Sensory Integration-Based Occupational Therapy Intervention on Children With Autism Spectrum Disorders, *61*(5), 574–583
Lessons Learned: A Pilot Study on Occupational Therapy Effectiveness for Children With Sensory Modulation Disorder, *61*(2), 161–169
Occupational Therapy Using a Sensory Integrative Approach: A Case Study of Effectiveness, *61*(2), 239–246
A Randomized Controlled Pilot Study of the Effectiveness of Occupational Therapy for Children With Sensory Modulation Disorder, *61*(2), 228–238
Sensory Processing in Children With and Without Autism: A Comparative Study Using the Sort Sensory Profile, *61*(2), 190–200
Sensory Processing Disorders in a Nonhuman Primate Model: Evidence for Occupational Therapy Practice, *61*(2), 247–253
Using Salivary Cortisol to Measure the Effects of a Wilbarger Protocol-Based Procedure on Sympathetic Arousal: A Pilot Study, *61*(4), 406–413
Validating the Diagnosis of Sensory Processing Disorders Using EEG Technology, *61*(2), 176–189

Spinal Cord Injury
The Lived Experience of Recapturing Self-Care, *61*(3), 303–310

Stroke
The Lived Experience of Recapturing Self-Care, *61*(3), 303–310
Occupational Therapy Outcomes for Clients With Traumatic Brain Injury and Stroke Using the Canadian Performance Measure, *61*(3), 328–334
Relationship Between Awareness of Disability and Occupational Performance During the First Year After a Stroke, *61*(5), 503–511

Traumatic Brain Injury
Gaining Insight Into Patients' Perspectives on Participation in Home Management Activities After Traumatic Brain Injury, *61*(3), 269–279
Occupational Therapy Outcomes for Clients With Traumatic Brain Injury and Stroke Using the Canadian Performance Measure, *61*(3), 328–334

Upper Extremity
Pediatric Constraint-Induced Movement Therapy in a Young Child With Minimal Active Arm Movement, *61*(5), 563–573

Work
Supported-Employment Program Processes and Outcomes: Experiences of People With Schizophrenia, *61*(5), 543–554
